

General Guidelines for authors

1. Manuscript preparation instructions and Word/LaTeX templates

General **author instructions** with links to the **template/style packages** valid for pss (a), (b), and (c) are available at

<http://www3.interscience.wiley.com/cgi-bin/jabout/102519628/instruct-c08.html>

Please use either the **Word** or the **LaTeX template**, especially for publication in **pss (c)**, since the articles will be produced from the **publication-ready manuscript files**. In addition, it is the easiest and most accurate way to check the **page limits**.

C. RESUBMITTING A REVISED MANUSCRIPT:

Once you have been asked to revise your manuscript, a link “Upload file” will appear on the right side of the manuscript overview list, leading you directly to the upload page. Upload the new file(s) and click on “Submit” again.

Please DON'T create a new manuscript when submitting a revised version, but upload the new file(s) to the already existing manuscript.

Please indicate in the “cover letter” text field whether your manuscript is a new submission or a revised version.
